WORK EXPERIENCE

UPWORK Nigeria, Front-end web developer freelancer October 2022 – Present ● Completed the upwork readiness test, demonstrating a comprehensive understanding of Upwork's policies, best practices and client expectations
● Engaged in the Upwork community by joining relevant professional groups and participating in forums and discussions

OUTREACHY. (Outreachy supports diversity in free and open source software) Nigeria, Outreachy Open Source Contributor March 2023 – April 2023 ● Did fix an issue with popover not spanning the entire width of the parent container
● Fixed the accessibility of the project by adding aria-label to the components, making life easier for billions of users with disability from all over the world using the application
● Solved an issue with the project, which was to warn users when comparing builds from different repositories, saving millions of users the time and efforts of comparing incompatible builds

SIDE PROJECTS

MB PREPARATION APP January 2023

- Designed and implemented an application with a to-do list and a countdown functionality
- The application informs thousands of students about pending workloads and the remaining time to complete these workloads, tremendously increasing the students' success rate
- Enabled hundreds of medical students and people from other departments to load other curricula too

POSSIBLE-A APPLICATION July 2023 ● Built an application with quizzes for students in medical school
● The application also included the functionality from the previous application, increasing the yield of the app by nearly 60% of the app's previous value

ACTIVITIES
